

TORRE.CO - SITE REDESIGN

Wireframe: (First Attempt)

Low fidelity sketch: position and defined alignment of information, icons and graphics will be presented.

I think that the colors are sober, since it has a lot of information and the dark color is restful for the eyes, I propose to increase the gray color to the genome page.

#27292D

#504F4F

#9B9696

#FFFFFF

#00bcd4

Typography: Helvetica font family. It continues with the font that the page currently uses.

TORRE.CO - SITE REDESIGN

HEXAGONO: I decide to leave this form for the photo, since it takes the human genome as a reference for the new trend of presentation of a job profile or resume.
