

Final Status Torre.co App

advance date: 05-02-2021

1. Modifying the navbar component

Initially, the adjustment was made so that the icons were well aligned, once it was achieved, the routing to the icons was implemented. It should be noted that the search and genome icons were routed.

Releases In the [activity feed](#) link to GitHub to view commit diffs

 You can now change your main deploy branch from "master" to "main" for both manual and automatic deploys, please follow the instructions [here](#).

Enable automatic deploys from GitHub

Every push to the branch you specify here will deploy a new version of this app. **Deploys happen automatically;** be sure that this branch is always in a deployable state and any tests have passed before you push. [Learn more](#).

Choose a branch to deploy

 dev

☒ Wait for CI to pass before deploy

Only enable this option if you have a Continuous Integration service configured on your repo.

Enable Automatic Deploys

The link for the production for search module is:

<https://torretechleader.herokuapp.com/#/search>

and Heroku genoma
